

VeristicPrint

VeristicPrint Biometric Solution is a technology capable of uniquely identifying or verifying a person by comparing fingerprints acquired with a digital camera without any contact. It enables digital imaging devices, such as smartphones, webcams and digital cameras to be used as fingerprint scanners.

BENEFITS OF USING THE VERISTICPRINT BIOMETRIC SOLUTION:

- Contactless (non-invasive and hygienic)
- Scanner independent (digital camera)
- Secure templates (Hashed)

Contactless fingerprint using a cellphone camera

Application analysing the scanned fingerprinta cellphone camera
