## 3. PROPOSAL SPECIFICATION

### 3.1. Background

The MCPP is specifically designed to support municipal capability development in local municipalities (LMs) where Anglo American (AA) Business Unit Operations and Mines are located. The current phase of the MCPP is targeted at eight (8) local municipalities in 3 provinces, as listed below.

1. Fetakgomo Tubatse LM – Limpopo Province
2. Moses Kotane LM – North West
3. Musina LM – Limpopo Province
4. Mogalakwena LM – Limpopo Province
5. **Thabazimbi LM – Limpopo Province**
6. Blouberg LM – Limpopo Province
7. Tsantsabane LM – Northern Cape
8. Gamagara LM – Northern Cape

The main objectives of the Municipal Capability & Partnership Programme are to:

- Support municipal partners to mitigate critical risks to service delivery, related to mine closure;
- Collaborate with municipal partners to improve service delivery (address challenges exacerbated by unique dynamics in mining towns with a specific focus on access to water, sustainability of infrastructure and service delivery in transitioning mining regions) and;

- Strengthen the collaboration between partners to tackle current and future development challenges peculiar to mining towns and regions.

This request for proposal relates to MCPP support in **Thabazimbi Local Municipality (TZLM)**.

In Thabazimbi the programme is largely funded and supported through strong collaboration between Thabazimbi Municipality, Anglo American Platinum Amandelbult Complex, Anglo American Group, COGTA and dedicated MCPP Teams (led by the CSIR). The MCPP focuses on three key areas: Strategic Development Planning, Water Services Management, and Infrastructure Management and TZLM officials who are currently participating in the MCPP are working primarily in strategic development planning-related activities specifically targeting Local Economic Development.

### **3.2. Scope of Work**

To meet the municipal capability requirements, a professional resource/team which consists of multi-disciplinary professionals is required to provide strategic advisory and planning related services to the TZLM. The professional resource/team will focus on short-, medium- and long-term strategic planning and development, spatial planning, and local economic development capability support.

The professional resource team must specialise in different aspects of the Built Environment and must have an overall principal/lead who will act as the nodal point for the MCPP between the municipality and the mining business units and provide strategic oversight to the MCPP programme in Thabazimbi in support of shaping the execution of identified priorities with the respective LM teams.

The scope of the contract shall be provision of strategic and development planning, spatial planning, and local economic development capability support over a period of three (3) years (years 2 and 3 to be confirmed based on approved funding).

The service provider's core team will be required to be available to the programme for the duration of the contract. A representative of the core team will also be required to attend bi-

weekly progress meetings and to share learning and/or experience on the programme internally with other MCPP teams (working in different municipalities) on an ad-hoc basis.

The service provider will have to ensure that a collaborative partnership is built between the mining business units and the relevant municipal departments/sections to foster an information sharing and participatory relationship. The service provider will need to establish working relationships with key stakeholders and strategic partners and develop collaborations.

The scope of work will involve a combination of technical assistance and capability development, the service provider will be required to collaborate with municipal partners, in context relevant ways, to strengthen individual and institutional capability, improve functionality of teams and processes (across line departments in the municipality, as well as external processes). In addition to collaboration, in-service coaching and mentoring, this might also entail support to politicians, industry and/or other partners and/or forums (e.g., Local Economic Development Forum) to improve their collaboration in the municipal space for the development of the TZLM LED strategy.
