SECTION A – TECHNICAL INFORMATION

1 INTRODUCTION

The Council for Scientific and Industrial Research (CSIR) is one of the leading scientific research and technology development organisations in Africa. In partnership with national and international research and technology institutions, CSIR undertakes directed and multidisciplinary research and technology innovation that contributes to the improvement of the quality of life of South Africans. The CSIR's main site is in Pretoria while it is represented in other provinces of South Africa through regional offices.

2 BACKGROUND

The CSIR through its Implementation Unit and on behalf of organisations, which include the national Department of Science and Technology (DST), the Department of Rural Development and Land Reform (DRDLR) and the North West provincial Department of Economy and Enterprise Development (DEED), is implementing several projects within designated areas throughout the country. The primary objective of these projects is to establish community-based enterprises that would provide employment and contribute towards the growth of the local economies.

The projects are located within selected communities throughout the country and cut across several sectors, including mainly agro-processing and manufacturing. In the pursuit to achieve this objective, the projects are employing local people (project beneficiaries) under the Expanded Public Works Programme conditions. The projects employ a collective of more than 80 people. The CSIR therefore requires services for managing a payroll system and/or labour contracts.

3 INVITATION FOR PROPOSAL

Proposals are hereby invited for the supply of Projects' Labour and Payroll Management services to the CSIR. The scope of service includes the following:

- Contracting project beneficiaries/employees on behalf of the CSIR under the Expanded Public Works Programme conditions, as per the Ministerial Determination 4: Expanded Public Works Programmes.

- Registering and managing employees under the Unemployment Insurance Fund (UIF) Act.
- Managing the monthly payroll for the employees.
- Registration of employees for UIF contributions.

The exact service(s), in line with the above, will differ from one project to the other depending on the circumstances.

The CSIR will provide the following:

- All information required for completion of the employment contracts.
- Funds for payments of salaries and the service provider's services on a monthly basis.
- Instructions towards payment of salaries on a monthly basis.
