SECTION A – TECHNICAL INFORMATION

1 INTRODUCTION

The Council for Scientific and Industrial Research (CSIR) is one of the leading scientific research and technology development organisations in Africa. In partnership with national and international research and technology institutions, CSIR undertakes directed and multidisciplinary research and technology innovation that contributes to the improvement of the quality of life of South Africans. The CSIR's main site is in Pretoria while it is represented in other provinces of South Africa through regional offices.

2 BACKGROUND

The CSIR is developing a process for the production of titanium metal powder. The process fluid is a molten salt at elevated temperature in which the titanium powder product is suspended. The slurry of metal powder and molten salt is circulated through several reactors via pumping and gravity flow.

3 INVITATION FOR PROPOSAL

Proposals are hereby invited for the provision of specialist and advisory services on slurry system design and slurry pump operations to the CSIR.

4 PROPOSAL SPECIFICATION

Proposal specification for specialist and advisory services on slurry system design and slurry pump operations requirements are as follows:

- a) Evaluate the current system, compare against settling criteria and estimate the maximum flowrate that could be achieved in the current system. This is to include a sensitivity analysis.
- b) Complete hydraulic design and recommend changes to achieve the required throughput. The recommended changes may include changes to pipe diameters, tank elevations, tank operational levels and the pump duty.
- c) Recommendations and discussion with regard to the solids accumulation on the back vanes of the pump impeller.
- d) Recommendations with regard to control, i.e. flow rate measurement and the feedback to the VSD to control the pump speed.
- e) Recommendations with regard to pump type.

5 FUNCTIONAL EVALUATION CRITERIA

5.1 The evaluation of the functional / technical detail of the proposal will be based on the following criteria:

5.1.1 Bidders Relevant Experience

The bidder must list details of a number of completed slurry system design projects conducted in the past ten (10) years. Basic information on the systems designed as well as a contact person at the company where the project was executed can at any stage be requested to verify claims.

5.1.2 Bidders Proposed Methodology

The proposed methodology will show that the bidder has a good understanding of the slurry environment, and can assist in the hydrodynamic plant design. This will include indicating the proposed methods to be used in modelling the manner in which slurry rheology affects flow behaviour in the system / pipework.

5.1.3 Qualifications and Skills of Key Personnel

The bidder must list a minimum of two (2) employees who will be active on the project. The bidder must indicate the qualifications of the employees and their prior experience in slurry systems design. The minimum acceptable qualification will be an Engineering Qualification recognised by the National Qualifications Framework (NQF) at a level of 7, with level 8 preferred.

5.1.4 The weighting for the functional criteria will be applied as per the following table:

Criteria description	Weighting
Bidders Relevant Experience	50%
Bidders Proposed Methodology	25%
Qualifications and Skills of Key Personnel	25%

5.2 Proposals with functionality/technical points of less than the pre-determined minimum overall percentage of 75% and less than 70% on any of the individual criteria will be eliminated from further evaluation.

5.3 Refer to Annexure A for the scoring sheet that will be used to evaluate functionality.

6 ELIMINATION CRITERIA

Proposals will be eliminated under the following conditions:

- Submission after the deadline;
- Proposals submitted at incorrect location; and
- Registration with The Engineering Council of South Africa

7 NATIONAL TREASURY (CSD) REGISTRATION

Before any negotiations will start with the winning bidder it will be required from the winning bidder to:

- be registered on National Treasury's Central Supplier Database (CSD). Registrations can be completed online at: www.csd.gov.za;
- provide the CSIR of their CSD registration number; and
- provide the CSIR with a certified copy of their B-BBEE certificate. If no certificate can be provided, no points will be scored during the evaluation process. (RSA suppliers only)
