SECTION A: TERMS OF REFERENCE, SCOPE OF WORK, TECHNICAL SPECIFICATION AND FUNCTIONAL REQUIREMENTS

1 INTRODUCTION

The Council for Scientific and Industrial Research (CSIR) is one of the leading African research and technology development organisations. The CSIR's mandate is to undertake directed and multidisciplinary research and technology innovation that contributes to the improvement of the quality of life of South Africans. The CSIR lives and achieves this mandate in partnership with national and international research and technology institutions, parties in the public and private sectors and with civil societies.

2 BACKGROUND

The CSIR, through its Defence and Security Cluster requires the services of a qualified contractor to assist with supplying and installing a fixed Crawl Beam (i.e., lifting equipment) installed at their Medium Speed Wind Tunnel (MSWT) facility and the cooling water pump pit, for maintenance interventions. Currently, the removal of the 132kW MSWT cooling water pumps and motors (weight > 2 tonnes) for maintenance purpose is costly and time consuming and requires the scheduled hiring of portable cranes or crane trucks. This installation will allow quick and easy turnarounds during maintenance interventions, saving costs and reducing tunnel downtime.

3 INVITATION FOR QUOTATION

Quotations are hereby invited for the provision of construction services related to the supply, installation, and commissioning of a fixed Crawl Beam lifting equipment and Structure at the CSIR Scientia Campus, Pretoria.

4 SCOPE OF WORK AND DELIVERABLES

Bidders are requested to quote the CSIR in line with the below Bill of Quantities / Pricing Schedule:

- ❖ The supply, installation and commissioning of a 3-tonne fixed Crawl Beam at the MSWT Cooling Tower pump pits and paved area for a vehicle to load and unload this equipment beneath the crawl beam in building 13.
