Release of Draft BA Report for 30-day comment period): Text included in the Newspaper Advertisements - The Cape Times (English) and Die Burger and Noordwester (Afrikaans)

**JOINT NOTIFICATION OF SUBSTANTIVE AMENDMENT TO THE ENVIRONMENTAL AUTHORISATIONS
ISSUED FOR THE PROPOSED RIETRUG, SUTHERLAND AND SUTHERLAND 2 WIND ENERGY FACILITIES, NEAR
SUTHERLAND IN THE NORTHERN CAPE AND WESTERN CAPE PROVINCES
DEA REFERENCE NUMBERS: 12/12/20/1782/1/AM3; 12/12/20/1782/2/AM3; 12/12/20/1782/3/AM3 (RESPECTIVELY)**

South Africa Mainstream Renewable Power Developments (Pty) Ltd (hereinafter referred to as Mainstream) received three Amended Environmental Authorisations (EAs), dated 10 November 2016 (DEA Reference Numbers: 12/12/20/1782/1; 12/12/20/1782/2; and 12/12/20/1782/3), from the National Department of Environmental Affairs (DEA) (now operating as the Department of Environment, Forestry and Fisheries (DEFF)) to construct and operate the Rietrug Wind Energy Facility (WEF), Sutherland WEF and Sutherland 2 WEF. Subsequent to these EAs being issued, DEA granted EAs for two Applications for Substantive Amendment which were undertaken for each WEF.

Notice is hereby given in terms of Regulation 41 of the Environmental Impact Assessment (EIA) Regulations of 2014 (as amended) of the National Environmental Management Act (Act 107 of 1998) (NEMA) of a third application being submitted for a Substantive Amendment to EA for each WEF. Mainstream wishes to apply for the following amendments:

- 1. An increase from the authorised 150 m hub height and rotor diameter to 200 m hub height and rotor diameter.**
- 2. To amend the name and contact details of the holder of the EA.**

The EA Amendment processes will comply with Regulations 31 to 33 of the 2014 NEMA EIA Regulations as amended. Three separate applications for Amendment to EA have been submitted to DEFF as the competent authority; i.e. one for each WEF. Although three separate applications have been submitted to DEFF and three separate Draft Amendment Reports have been prepared, an integrated Public Participation Process for all three Amendment Processes are being undertaken as the WEFs are located within the same geographical area and constitute the same type of activity.

The Draft Amendment Reports are being released for a 30-day commenting period extending from **4 October 2019 to 4 November 2019**. Comments must be submitted to the CSIR on or before this date using the details provided below. A hard copy of each report is available at the Sutherland and Laingsburg Public Libraries. The reports can also be downloaded from the following website (<https://www.csir.co.za/environmental-impact-assessment>). Comments received during the comment period will be recorded and addressed (as applicable) in the finalised Amendment Reports that will be submitted to DEFF for decision-making.

Should you be interested in registering as an Interested and/or Affected Party (I&AP) and to provide comments on the draft reports, you are kindly requested to e-mail, fax or mail your name contact details, and comments to the Environmental Assessment Practitioner (EAP) at CSIR: Minnelise Levendal; Postal address: PO Box 320, Stellenbosch, 7599; Fax: 021 888 2693 or e-mail: MLevendal@csir.co.za

**GEKOMBINEERDE KENNISGEWING VAN WYSIGINGS AAN DIE OMGEWINGSMAGTIGINGS UITGEREIK VIR DIE VOORGESTELDE RIETRUG, SUTHERLAND EN SUTHERLAND 2 WINDKRAGAANLEGTE, NABY SUTHERLAND IN DIE NOORD EN WES-KAAP PROVINSIES
(DOS VERWYSINGSNOMMERS: 12/12/20/1782/1/AM3; 12/12/20/1782/2/AM3; 12/12/20/1782/3/AM3, ONDERSKEIDELIK)**

South Africa Mainstream Renewable Power Developments (Pty) Ltd ("Mainstream") het drie gewysigde Omgewingsmagtigings, gedateer 10 November 2016, ontvang vir die ontwikkeling van die Rietrug, Sutherland en Sutherland 2 windkragaanlegte (vanaf die Nasionale Departement van Omgewingsake (DOS), wat nou bekend staan as die Nasionale Departement van Omgewingsake, Bosbou en Visserye ["National Department of Environment, Forestry and Fisheries (DEFF)"]. Hierna het DOS nog twee Omgewingsmagtigings uitgereik vir aansoeke om Materiële Wysigings ("Substantive Amendments") vir elk van bogenoemde windkragaanlegte.

Kennis word hiermee gegee ingevolge Regulasie 41 van die Nasionale Omgewingsbestuurswet (Wet 107 van 1998, soos gewysig) (NEMA) en die 2014 NEMA Omgewingsimpakstudie Regulasies, van 'n derde aansoek om Materiële Wysiging vir elke windkragaanleg. Mainstream wil aansoek doen vir die volgende wysigings:

- 1. 'n Toename in die goedgekeurde 150 m turbine hub hoogte en rotor deursnee na 200 m turbine hub hoogte en rotor deursnee.**
- 2. Om die kontak persoon en kontakbesonderhede van die houer van die Omgewingsmagtiging te verander.**

Die Materiële Wysigings prosesse sal voldoen aan Regulasies 31 tot 33 van die 2014 NEMA Omgewingsimpakstudie Regulasies, soos gewysig. Alhoewel drie aparte aansoeke ingedien was aan DEFF en drie aparte Konsep Wysigingverslae saamgestel was, word 'n geïntegreerde openbare deelname proses onderneem vir al drie aansoeke, aangesien die projekte in dieselfde area gaan plaasvind en dieselfde aktiwiteit omskryf.

The Wysigingsverslae word hiermee vrygestel vir 'n 30-dae kommentaar periode wat strek **vanaf 4 Oktober 2019 to 4 November 2019**. Kommentaar moet gelewer word aan die CSIR op of voor hierdie datum aan die kontak persoon onder genoem. 'n Harde kopie van die Konsep Wysigingverslae vir elke windkragaanleg is beskikbaar vir besigtiging by die Sutherland en Laingsburg Openbare Biblioteke. Die verslae kan ook afgelaai word vanaf die volgende webtuiste (<https://www.csir.co.za/environmental-impact-assessment>). Kommentaar wat ontvang gaan word gedurende hierdie kommentaar periode gaan ingesluit en geadresseer word (waar van toepassing) in die finale Wysigingverslae wat ingehandig gaan word by DEFF vir besluitneming.

Sou u belangstel om te registreer as 'n Geïnteresseerde en/of Belanghebbende Party (G&BP), en om kommentaar op die voorgestelde projekte te lewer, word u vriendelik versoek om u naam, kontakbesonderhede en kommentaar te stuur aan die Omgewingsimpak praktisyn by die WNNR: Minnelise Levendal; Posadres: Posbus 320, Stellenbosch, 7599; Tel: 021 888 2495; Faks: 021 888 2693 of e-pos: MLevendal@csir.co.za

Appendix B.2 Site Notice Boards

Copy of the Site Notice Boards: English and Afrikaans

JOINT PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED SUBSTANTIVE ENVIRONMENTAL AUTHORISATION AMENDMENT PROCESSES

FOR THE AMENDMENTS OF THE TURBINES SPECIFICATIONS AND THE NAME AND CONTACT DETAILS OF THE HOLDER OF THE ENVIRONMENTAL AUTHORISATION FOR THE PROPOSED SUTHERLAND, SUTHERLAND 2 AND RIETRUG WIND ENERGY FACILITIES, NEAR SUTHERLAND IN THE NORTHERN CAPE AND WESTERN CAPE PROVINCES

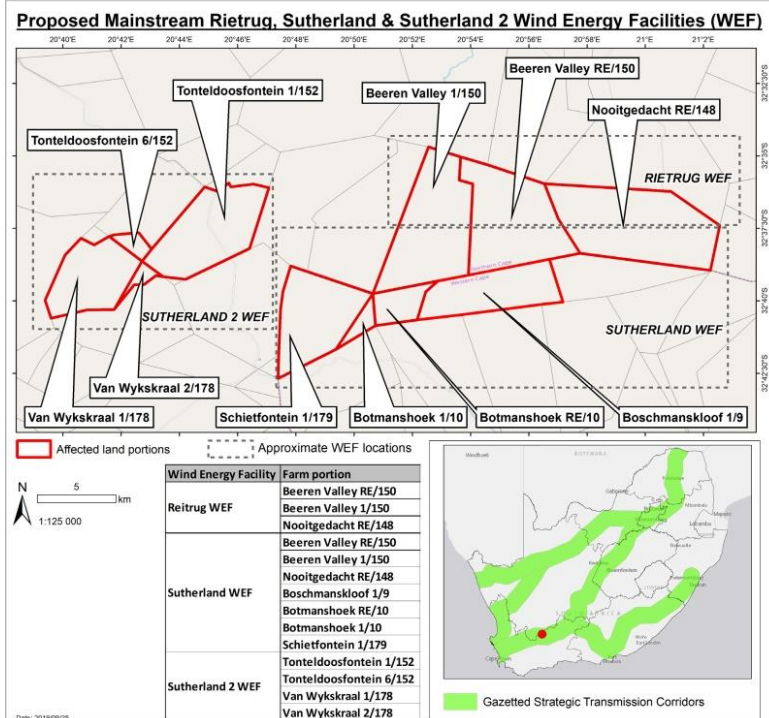

South Africa Mainstream Renewable Power Developments (Pty) Ltd (hereinafter referred to as Mainstream) received three Amended Environmental Authorisations (EAs), dated 10 November 2016 (DEA Reference Numbers: 12/12/20/1782/1; 12/12/20/1782/2; and 12/12/20/1782/3), from the National Department of Environmental Affairs (DEA) (now operating as the Department of Environment, Forestry and Fisheries (DEFF)) to construct and operate the Sutherland Wind Energy Facility (WEF), Sutherland 2 WEF, and Rietrug WEF. Notice is hereby given in terms of Regulation 41 of the Environmental Impact Assessment (EIA) Regulations of 2014 (as amended) of the National Environmental Management Act (Act 107 of 1998) (NEMA) that Mainstream is proposing to amend the name and contact details of the holder of the EA and the turbine specifications of each of the separately authorised WEFs (as part of a Substantive Amendment process). The EA holder wishes to apply for an increase from the authorised 150 m hub height and rotor diameter to 200 m hub height and rotor diameter. The Rietrug and Sutherland 2 WEFs are located within the Northern Cape, approximately 23 km south of Sutherland and 50 km north of Laingsburg. It falls under the jurisdiction of the Namakwa District Municipality (DM) and the Karoo Hoogland Local Municipality (LM). The proposed Sutherland WEF is located in the Northern Cape, within the afore-mentioned district and local municipalities. However, a portion of the Sutherland WEF falls within the Western Cape, under the jurisdiction of the Central Karoo DM and the Laingsburg LM.

The proposed amendments constitute a substantive EA Amendment Process in terms of Regulations 31 to 33 of the 2014 NEMA EIA Regulations as amended. The CSIR (Minnelise Levendal) has been appointed by Mainstream as the Environmental Assessment Practitioner (EAP) to undertake the requisite substantive EA Amendment applications. Three separate applications for Amendment of EA have been submitted to DEFF as the competent authority; i.e. one for each WEF.

Although three separate applications have been submitted to DEFF and three separate Amendment Reports will be prepared, an integrated Public Participation Process for all three Amendment Processes will be undertaken as the WEFs are located within the same geographical area and constitute the same type of activity. Project information can be accessed from the project website:

<https://www.csir.co.za/environmental-impact-assessment>

Should you be interested in registering as an Interested and/or Affected Party (I&AP) as well as to raise any issues and concerns to be included in the Amendment Reports, you are kindly requested to register your interest in the projects and to submit any comments you may have with your contact details via e-mail, post or mail to the EAP at CSIR: Minnelise Levendal; CSIR, PO Box 320, Stellenbosch, 7599; Fax: 021 888 2693 or e-mail: MLevendal@csir.co.za

GEKOMBINEERDE KENNISGEWING VAN DIE VOORGESTELDE WYSIGINGS AAN DIE OMGEWINGSMAGTIGINGS VIR DIE WYSIGING VAN TURBINE SPESIFIKASIES EN KONTAK PERSOON EN BESONDERHEDE VAN DIE HOUER VAN DIE OMGEWINGSMAGTIGING

VIR DIE VOORGESTELDE SUTHERLAND, SUTHERLAND 2 EN RIETRUG WINDKRAGAANLEGTE, NABY SUTHERLAND IN DIE NOORD EN WES-KAAP PROVINSIES

South Africa Mainstream Renewable Power Developments (Pty) Ltd ("Mainstream") het drie gewysigde Omgewingsgoedkeurings, gedateer 10 November 2016, ontvang vir die ontwikkeling van die Sutherland, Sutherland 2 en Rietrug windkragaanlegte (DOS verwysingsnommers: 12/12/20/1782/1, 12/12/20/1782/2 en 12/12/20/1782/3) vanaf die Nasionale Departement van Omgewingsake (DOS), wat nou bekend staan as die Nasionale Departement van Omgewingsake, Bosbou en Visserye "National Department of Environment, Forestry and Fisheries (DEFF)". Kennis word hiermee gegee ingevolge Regulasie 41 van die Nasionale Omgewingsbestuurswet (Wet 107 van 1998, soos gewysig) (NEMA) en die 2014 NEMA Omgewingsimpakstudie Regulasies, soos gewysig, dat Mainstream van voorneme is om die kontak persoon en kontakbesonderhede van die houder van die Omgewingsmagtiging te verander. Mainstream is ook van voorneme om die windkragaanlegte se turbine spesifikasies te wysig vir elke aparte goedgekeurde windkragaanleg as deel van drie Materiële Wysigingsaansoeke ("Substantive Amendment applications"). Mainstream wil aansoek doen vir 'n toename in die goedgekeurde 150 m turbine hub hoogte en rotor deursnee na 200 m turbine hub hoogte en rotor deursnee.

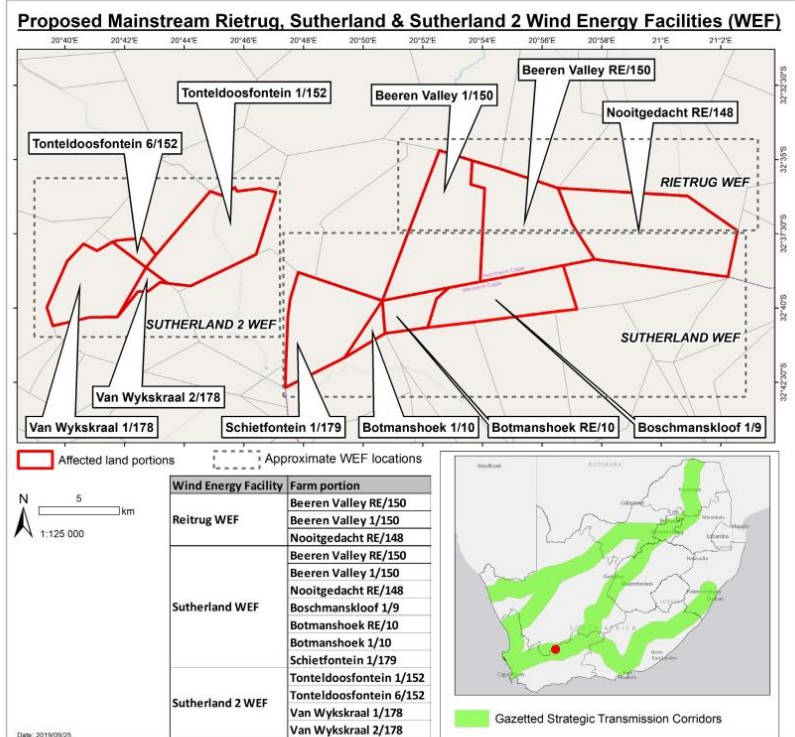

Die Rietrug en Sutherland 2 windkragaanlegte kom voor in die Noord-Kaap provinsie, ongeveer 23 km suid van Sutherland en 50 km noord van Laingsburg. Dit kom voor in die Karoo Hoogland Munisipaliteit en die Namakwa Distrik Munisipaliteit. Die Sutherland windkragaanleg kom ook voor in die Noord-Kaap in die munisipaliteite soos bo genoem. 'n Deel van die Sutherland windkragaanleg kom egter ook voor in die Wes-Kaap Provinsie, onder die jurisdiksie van die Laingsburg Munisipaliteit en Sentrale Karoo Distrik Munisipaliteit.

The voorgestelde Wysigings klassifiseer as Materiële Wysigings ingevolge Regulations 31 tot 33 van die 2014 NEMA Omgewingsimpakstudie Regulasies, soos gewysig. Die WNNR (CSIR; Minnelise Levendal) is aangestel deur Mainstream as die Omgewingsimpak praktisyn om die nodige prosesse te bestuur. Drie aparte Wysigings aansoeke is by DEFF ingedien, een vir elke windkragaanleg. Alhoewel drie aparte aansoeke ingedien was

aan en drie aparte Wysigingsverslae opgestel en vrygestel gaan word vir kommentaar, gaan 'n geïntegreerde openbare deelname proses onderneem word, aangesien die projekte in dieselfde area gaan plaasvind en dieselfde aktiwiteit omskryf.

Inligting oor die projek kan bekom word by die webtuiste as volg: <https://www.csir.co.za/environmental-impact-assessment>

Sou u belangstel om te registreer as 'n Geïnteresseerde en/of Belanghebbende Party (G&BP), en om kommentaar op die voorgestelde projekte te lewer, word u vriendelik versoek om u naam, kontakbesonderhede en kommentaar te stuur aan die Omgewingsimpak praktisyn by die WNNR: Minnelise Levendal; Posadres: Posbus 320, Stellenbosch, 7599; Tel: 021 888 2495; Faks: 021 888 2693 of e-pos: MLevendal@csir.co.za CSIR, Posbus 320, Stellenbosch, 7599; Faks: 021 888 2693 of e-pos: MLevendal@csir.co.za

Dear Madam

ACKNOWLEDGEMENT OF RECEIPT OF APPLICATION FOR AMENDMENT OF ENVIRONMENTAL AUTHORISATION ISSUED ON 10 NOVEMBER 2016 FOR THE 140 MEGAWATTS (MW) SUTHERLAND WIND ENERGY FACILITY NEAR THE TOWN OF SUTHERLAND, WITHIN THE KAROO HOOGLAND AND THE LAINSBURG LOCAL MUNICIPALITY IN THE WESTERN CAPE AND THE NORTHERN CAPE PROVINCES

The Department confirms having received the application for Amendment of Environmental Authorisation for the abovementioned project on 19 August 2019.

Please note that your application for Amendment of Environmental Authorisation falls within the ambit of amendments to be applied for in terms of Part 2 of Chapter 5 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended. You are therefore referred to Regulation 32 of the EIA Regulations, 2014, as amended.

The draft motivation report to be submitted must comply with the following:

(a) Public participation

- (i) Please ensure that comments from all relevant stakeholders are submitted to the Department with the final report. This includes but is not limited to the Western Cape Department of Environmental Affairs and Development Planning, the Northern Cape Department of Environment and Nature Conservation, the Department of Forestry and Fisheries (DAFF), the provincial Department of Agriculture, the South African Civil Aviation Authority (SACAA), the Department of Transport, the Lainsburg Local Municipality, the Karoo Hoogland Local Municipality, the Department of Water and Sanitation (DWS), the South African National Roads Agency Limited (SANRAL), the South African Heritage Resources Agency (SAHRA), the Endangered Wildlife Trust (EWT), BirdLife SA, the Department of Mineral Resources, the Department of Rural Development and Land Reform, and the Department of Environmental Affairs: Directorate Biodiversity and Conservation.
- (ii) Please ensure that all issues raised and comments received during the circulation of the draft report from registered I&APs and organs of state which have jurisdiction in respect of the proposed activity are adequately addressed in the final report. The Public Participation Process must be conducted in terms of Regulation 39, 40, 41, 42, 43 & 44 of the EIA Regulations 2014 as amended.

(b) Layout & Sensitivity Maps

- (i) All preferred turbine positions must be clearly numbered. The turbine position numbers must be consistently used in all maps to be included in the final report.
- (ii) A copy of the draft layout map must be submitted with the draft report. All available biodiversity information must be used in the finalisation of the layout map. Existing infrastructure must be used as far as possible e.g. roads. The layout map must indicate the following:
 - The envisioned area for the wind energy facility; i.e. placing of wind turbines and all associated infrastructure should be mapped at an appropriate scale.
 - All supporting onsite infrastructure such as laydown area, guard house, control room, and buildings, including accommodation etc.
 - All necessary details regarding all possible locations and sizes of the proposed satellite substation, the main substation and internal powerlines;
 - All existing infrastructure on the site, especially internal roads infrastructure;
 - The location of sensitive environmental features on site e.g. CBAs, heritage sites, wetlands, drainage lines etc. that will be affected by the facility and its associated infrastructure;
 - Buffer areas; and
 - All "no-go" areas.
- (iii) The draft report must include an environmental sensitivity map indicating environmental sensitive areas and features identified during the assessment process.
- (iv) The draft report must include a map combining the draft layout map superimposed (overlain) on the environmental sensitivity map.
- (v) The draft report must clearly show the positions of the authorised turbines in relation to the proposed locations.

(c) Specialist assessments

- (i) You are requested to submit supplementary specialist assessments from the following specialists on the new layout with the draft motivation report:
 - Avifauna
 - Heritage and palaeontology
 - Botanical (flora and fauna)
 - Noise
 - Bat
 - Visual
- (ii) The EAP must ensure that the terms of reference for any identified supplementary specialist assessment includes the following:
 - A detailed description of the assessment's methodology; indication of the locations and descriptions of the development footprint, and all other associated infrastructures that they have assessed and are recommending for authorisations.
 - Provide a detailed description of all limitations to the assessments. All specialist studies must be conducted in the right season and providing that as a limitation will not be allowed.
 - Please note that the Department considers a 'no-go' area, as an area where no development of any infrastructure is allowed; therefore, no development of associated infrastructure including access roads is allowed in the 'no-go' areas.
 - Should the specialist definition of 'no-go' area differ from the Departments definition; this must be clearly indicated. The specialist must also indicate the 'no-go' areas buffer if applicable.
 - All specialist assessments must be final, and provide detailed/practical mitigation measures and recommendations.
 - Should specialist recommend specific mitigation measures for identified turbine positions, these must be clearly indicated.

Chief Directorate: Integrated Environmental Authorisations

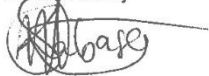

- Clearly defined cumulative impacts and where possible the size of the identified impact must be quantified and indicated, i.e. hectares of cumulatively transformed land.
 - A detailed process flow to indicate how the specialist's recommendations, mitigation measures and conclusions from the various similar developments in the area were taken into consideration in the assessment of cumulative impacts and when the conclusion and mitigation measures were drafted for this project.
 - Identified cumulative impacts associated with the proposed development must be rated with the significance rating methodology used in the process.
 - The significance rating must also inform the need and desirability of the proposed development.
 - A cumulative impact environmental statement on whether the proposed development must proceed.
- (iii) Should the appointed specialists specify contradicting recommendations, the EAP must clearly indicate the most reasonable recommendation and substantiate this with defensible reasons; and where necessary, include further expertise advice.
- (iv) The maps used within the specialist studies must comply with comment b(i) of this comments letter.
- (v) The specialist assessments must comply with all the latest industry guidelines.

You are also advised that the Public Participation Process must be conducted as outlined in Chapter 6 of the EIA Regulations, 2014, as amended.

Further note that in terms of Regulation 45 of the EIA Regulations, 2014, as amended, this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted in terms of Regulation 3(7) of the EIA Regulations, 2014, as amended.

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Office Hours which is visible on the Departmental gate. EIA related documents (includes application forms, reports or any EIA related submissions) that are faxed; emailed; delivered to Security or placed in the Departmental Tender Box will not be accepted.

Yours sincerely

Mr Sabelo Malaza

Subject: Sutherland WEF amendment application

Dear Andrew

Some time ago the Sutherland WEF which just sticks very slightly into Western Cape had a turbine specification change which we notified HWC about. We submitted a NID and the response was no further studies (attached). They have again amended the turbine specifications but this time I think it will be fine to just inform HWC about this since it makes no difference to the original comment from HWC. To this end, please

see a letter attached which is being submitted to SAHRA for the Northern Cape part as well.

Please confirm that this notification is suitable for this.

best
Jayson

RESPONSE TO NOTIFICATION OF INTENT TO DEVELOP: FINAL
In terms of Section 38(2) of the National Heritage Resources Act (Act 25 of 1999) and the Western Cape Provincial Gazette 6061, Notice 298 of 2003

NOTIFICATION OF INTENT TO DEVELOP: PROPOSED INCREASE OF TURBINE HIEGHT AND ROTOR DIAMETER 150M AS PART OF THE SUTHERLAND WIND ENERGY FACILITY, PORTION 1 OF FARM BOSCHMANSKLOOF 9, LAINGSBURG, SUBMITTED IN TERMS OF SECTION 38(1) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)

CASE NUMBER: 16113003AS0207E

The matter above has reference.

Heritage Western Cape is in receipt of your application for the above matter received on 06 February 2017. This matter was discussed at the Heritage Officers meeting held on 17 February 2017.

You are hereby notified that, since there is no reason to believe that the proposed wind turbine and rotor diameter increase will impact on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

However, should any heritage resources, including evidence of graves and human burials, archaeological material and paleontological material be discovered during the execution of the activities above, all works must be stopped immediately and Heritage Western Cape must be notified without delay.

This letter does not exonerate the applicant from obtaining any necessary approval from any other applicable statutory authority.

HWC reserves the right to request additional information as required.

Should you have any further queries, please contact the official above and quote the case number.

Yours faithfully

.....
Mr Mxolisi Dlamuka
