

CAREER OPPORTUNITY

The Council for Scientific and Industrial Research (CSIR) is a leading scientific and technology research organisation that researches, develops, localises and diffuses technologies to accelerate socio-economic prosperity in South Africa. The organisation's work contributes to industrial development and supports a capable state.

Senior Researcher: Accelerated Road Pavement Testing (ATP)

(Two-year contract)

About the job:

The CSIR has a vacancy for a **Senior Researcher: Accelerated Road Pavement Testing** within the Transport Infrastructure Engineering Impact Area of the Smart Mobility Cluster. The research group strives to effectively and efficiently deliver practical, innovative, knowledge-based solutions addressing the infrastructure needs of the transport sector through the accelerated testing of roads with the Heavy Vehicle Simulator and associated research and data analysis. The purpose of the job is to lead the research conducted by the group whilst conducting HVS testing on specific roads. This position is based in Pretoria.

Key responsibilities:

- Provide strategic leadership to staff in the APT research group by ensuring quality scientific outputs and the professional development and transformation of the group's scientific capacity;
- Promote a culture of scientific excellence in terms of both quality and delivery;
- Lead the research in the validation of innovative/alternative/new materials for use in road construction;
- To become recognised as an expert in the field of APT and associated research;
- Networking ability both nationally and internationally, and proven networks within all aspects of transport infrastructure design, construction, maintenance and rehabilitation.
- Proven contract and project management experience on medium to large-scale projects, preferably involving multi-disciplinary research and development, both in South Africa and internationally;

Qualifications, skills and experience:

- A Masters' degree in civil engineering;
- 8 years civil engineering experience specialisation in road engineering;
- A track record in attracting and securing funding to support a team and formulating strategies;
- Lead the research conducted by the group whilst conducting HVS testing on specific roads
- Registration with a relevant professional body;
- Good understanding of the transport sector in South Africa;
- Excellent interpersonal and organisational skills;
- Ability to continuously disseminate research outputs in the form of technical papers;

- Ability to innovate and generate new knowledge;
- Must have good communication, presentation and writing skills;
- Must have the ability to work accurately, efficiently and independently as well as in a team;
- Must be computer literate as well as have the ability to understand and use domain specialised software;
- Ability to work in a methodical manner is essential;
- Ability to carry out strategic stakeholder interactions at all levels;
- Ability to effectively present ideas, concepts, plan and procedures;
- Demonstrated track record of the ability to work accurately, independently and efficiently.

Should you meet the above requirements, please email your CV to jobapplications@csir.co.za with your name and surname, position title and reference number in the subject line, **(eg. John Smith: Employee Relations Manager: Reference No: 300456)**

Closing date: 26 June 2020

PLEASE NOTE THAT FEEDBACK WILL BE GIVEN TO SHORTLISTED CANDIDATES ONLY.
